

## **The Community Health Assessment 2003**

Prepared by:

**Kathleen J. Welch, Ph.D.**  
Epidemiologist/Senior Evaluator  
The Healthy Community Coalition

### **Special thanks to the following individuals and organizations:**

Steven Johndro, BS, who greatly helped to compile and graph the data for the Community Health Assessment 2003;  
and Susan Gagnon, community health advocate for the HCC, who coordinated the 2002 Community Health Visioning and developed the 2002 Community Health Visioning Report, which can be found on pages 51-56;

We would also like to thank: Jennifer Fuerstenberger who helped to compile and graph the data; Sam Elowitch and Becky Grant-Widen who provided editorial assistance; and Leah Binder, Executive Director of the HCC, who was instrumental in overseeing the assessment.

Organizations that were very helpful in providing information and advice include: The Community Health Visioning Process, the Franklin Community Health Network, Western Maine Community Action, University of Maine at Farmington, United Way of the Tri-Valley Area, and the Maine Bureau of Health.

Finally, without the support and funding from the Maine Bureau of Health and Healthy Maine Partnerships this report would not have been possible.
